

ABOUT CONFERENCE

The International Conference on Global Conclave on Emerging Trends and Technologies (ICGCT-2025) is a platform that unites experts from diverse fields to tackle complex issues that cannot be solved within the confines of a single discipline. By integrating insights from various domains such as technology, health sciences, environmental studies, and social sciences, the conference aims to foster innovative solutions and new research directions. The event typically features keynote addresses by leading experts, panel discussions, workshops, and paper presentations, creating opportunities for attendees to share knowledge and collaborate across disciplines. It attracts a broad audience, including researchers, industry professionals, and students, all of whom benefit from the expanded perspectives and networking opportunities that arise from engaging with a variety of fields.
