

# ABOUT TIRUMALA ENGINEERING COLLEGE

Tirumala Engineering College stands as a beacon of value-based education, dedicated to nurturing a generation enriched with knowledge, discipline, and social responsibility. The college begins each day with the National Song Vandemataram and concludes with the National Anthem Janaganamana, instilling patriotism in students. National festivals like Independence Day and Republic Day are celebrated with great pride and participation from both faculty and students.

To promote a focused academic environment, the campus is mobile-free and under complete electronic surveillance. A strict no-bike policy ensures student safety, encouraging the use of college transport. Attendance is closely monitored, with immediate updates to parents in case of absences.

An effective counseling system assigns faculty mentors to guide students academically and personally. The college emphasizes holistic development through active participation in sports, yoga, and wellness programs like the 'Art of Living' induction. Sustainable practices are integrated into campus life through solar energy utilization and organic farming.

Regular parent-teacher meetings foster strong collaboration in supporting student growth. With its unique blend of discipline, innovation, and care, Tirumala Engineering College remains a model institution in engineering education.
